## Annual Progress Report – Additional Highways Maintenance Funding 2016/17

## Statement of Spend as at 31 March 2017

In addition to the annual capital maintenance allocation, in April 2016 the Department for Transport (DfT) provided additional funding to help local authorities to reduce pot holes on their road networks.

The following statement is made in compliance with the grant conditions for the additional highway maintenance funding from the DfT and outlines how and where the funding was invested.

Knowsley Council received an allocation of £107k from this funding. Specifically this funding was to be used for the permanent repair of potholes and/or the resurfacing of roads to eliminate the future formation of potholes.

Knowsley Council follows the recommendations of the Highways Maintenance Efficiency Programme Pothole Review and wherever possible seeks to implement the first time permanent repair of potholes.

This additional funding has supported the authority by enabling additional permanent pothole repairs to be carried out at a significant number of locations.

During 2016/2017 the Pothole Action Fund contributed to pothole repairs at the following locations on Knowsley Council's highway network:
